

Hello parents!

Mrs. Villone and I are so very proud of your children! They did a wonderful job coming into the classroom with very little tears and they loved going to gym, project time and singing songs. We are off to a great start!

We will continue to keep things simple until the children adjust to our schedule. This week they will be using foam stickers to make a Fall wreath. I try to include one of our songs with each project so you can sing with them at home. This week is the following:

Leaves, leaves falling down
Falling to the ground
Red and yellow, orange and brown
The leaves are falling down.

This coming weekend on October 2nd is our RNS Stroll at Tinker Park. You should have all received an email from our parent board regarding this event. It is a great way for families and staff to get together. I hope you all can attend!

If you have any questions or concerns, please do not hesitate to reach out. Thank you all for sharing your children with us!
